Museo Internazionale delle Ceramiche in Faenza

Ceramic emotions – Faience

Gino Geminiiani

All over the world Faenza or *Faience* means “ceramics”. Today Faenza hosts a dynamic and artistic environment, thanks to its museums, its ancient ceramic workshops and art schools.

“Ceramic emotions” is a project developed by the language school Extra Class Italia and GMT, that is a group of destination managers together with the town municipality and its Corporation of ceramists.

"Ceramic emotions" offers the possibility to learn the unique and ancient art of potter's wheel and decoration in the ceramic workshops of Faenza together with the masters.

Italian language in the ceramic workshop

Extra Class Italia proposes a special course “Italian language in the ceramic workshop”, which gives the opportunity to learn the professional language of ceramics through the approach “learning on the job” with online activities and interactive didactic materials.

Besides the learning activities, food and wine and cultural tours around the area between Emilia-Romagna and Tuscany are organized to discover Italy's beauty and style.
